

Self-Disclosure Program

Medicaid entities/Providers are required to report, return, and explain any overpayments they have received to the New York State Office of the Medicaid Inspector General (OMIG) Self-Disclosure Program within sixty (60) days of identification, or by the date any corresponding cost report was due, whichever is later. See Social Services Law (SOS) §363-d(6) & (7).

Overpayment Identification

Per OMIG, an overpayment has been identified when a Medicaid entity/Provider has, or should have, through the exercise of reasonable diligence, determined that a Medicaid fund overpayment was received, and they have quantified the amount of the overpayment.

Medicaid entities/Providers should be utilizing routine internal audits to review compliance with Medicaid requirements and identify any Medicaid fund overpayments that may have been received. Additionally, if a Medicaid entity/Provider is the subject of a government audit, part of that Medicaid entity's/Provider's due diligence is to review the audit results and look at past and future periods - not covered in the audit scope - to identify any overpayments resulting from similar issues. Medicaid entities/Providers are obligated to take corrective action, which includes reporting and returning any Medicaid overpayment identified to OMIG's Self-Disclosure Program.

Note: Voiding or adjusting claims does not satisfy the Medicaid entity's/Provider's obligation to report and explain the identified overpayment.

Timeframes

While both Federal and State regulations require a Medicaid entity/Provider to report, return, and explain an overpayment within sixty (60) days from identification, the actual timeframes for processing can vary. A Medicaid entity's/Provider's 60-day time frame will be tolled, or paused, when a completed Self-Disclosure is received by OMIG. The time frame to repay will remain tolled during OMIG's review.
